Summary

Jerry is a professional voiceover talent featuring a delivery described as having a *Warm Tone with a Natural Finish*. His vocal styles supply a professional audio image for corporate videos, documentaries, infomercials, HR training, safety, explainer and e-Learning projects. Jerry has a compassionate, understanding, soothing voice, also suitable for commercials. Jerry Reed is a versatile voice actor that can also give you a high powered, convincing announcer delivery when needed.

Business Summary and Capability

Jerry has been using his voice professionally for many years. His vocal career began at an early age in broadcasting. Later he embraced public and media relations while continuing to make his voice available professionally nationally and internationally. Today, supplying voiceovers is his full-time enterprise.

Facilities and Equipment

Jerry's sound booth is equipped with state-of-the-art high quality digital recording equipment featuring large diaphragm condenser and dynamic microphones and a digital audio work station (DAW). This facility allows for quick turn-around and nearly instantaneous delivery of completed audio tracks anywhere in the world via the Internet.

Expertise

Jerry's many years of personal experience in front of the microphone as a performer and behind it as an audio editor combined with keen ability to adapt to trends and vocal styles makes him the perfect choice for voiceover projects.
